Not just a pretty face...

Stateside photographer and longtime *SOS* contributor Mr Bonzai has a new book out. *Faces Of Music: 25 Years Of Lurching With Legends* (ISBN 1598630245) features exclusive photographs — more than 400 of them — and excerpts from interviews with over 200 artists, producers and engineers. Subjects include Robert Moog, Les Paul (pictured here with the author), Peter Gabriel, Herbie Hancock, George Massenburg, George Martin, Brian Wilson, Stevie Wonder, Frank Zappa... the list goes on! With Christmas just around the corner, it's a snip at \$24.99, available from www.amazon.com.
